

Project Design Phase

Problem – Solution Fit Template

Date	25 June 2025
Team ID	LTVIP2025TMID59612
Project Name	SB Foods - On-Demand Food Ordering Platform
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- Solve real-world food ordering challenges faced by customers, restaurants, and administrators.
- Accelerate solution adoption by integrating into users' existing habits and behaviors (e.g., mobile usage, contactless delivery).
- Improve communication through clear, focused messaging that resonates with user needs.
- Build trust by solving recurring issues and streamlining the ordering experience.
- Analyze and improve the current food ordering ecosystem by identifying gaps.

Purpose / Vision

Version:

Define CS, fit into CL 1. CUSTOMER SEGMENT(S) CS College students (18–25 yrs), night owls Working professionals with irregular hours Hostel/PG residents Single urban dwellers relying on food delivery	EG. BUDGET, DEVICES 6. CUSTOMER LIMITATIONS CL Limited student budget Dependent on mobile phones (Android/iOS) Prefers apps with wallet/UPI options Internet availability in hostels may be poor sometimes	PROS & CONS 5. AVAILABLE SOLUTIONS AS Zomato/Swiggy: Popular, but coverage varies & late-night options are limited Instant noodles/snacks: Quick but unhealthy Canteens/local eateries: Usually closed late night Calling restaurants directly: No real-time menu, no guarantee
Focus on PR, tap into BE, understand RC 2. PROBLEMS / PAINS PR + ITS FREQUENCY Hunger during late hours Limited/no food options after 11 PM Unreliable delivery services Time wasted browsing for open vendors Security concerns going out at night	9. PROBLEM ROOT / CAUSE RC Lack of 24/7 food access Mainstream food apps not optimized for late-night users Limited awareness of available open vendors No specialized interface for midnight cravings	7. BEHAVIOR BE + ITS INTENSITY High urgency during late-night hunger Frequent use of food apps Impulsive behavior in food selection Relies on reviews or past orders
Identify strong TR & EM 3. TRIGGERS TO ACT TR Physical hunger or skipped meals Peer recommendations Pop-up notifications offering late-night discounts Exam stress or long work hours	10. YOUR SOLUTION SL SB Foods app with dedicated "Late Night Cravings" section Only displays open restaurants for current time and location Instant ordering, saved profiles, & secure payments Feedback-driven AI suggestions and simplified UX for night use	8. CHANNELS of BEHAVIOR CH ONLINE Mobile apps (primary), social media, food forums OFFLINE Word-of-mouth in hostels, campus boards Rarely visits stores late night due to safety concerns

IdeaHackers.NL

Summary:

SB Foods solves a **common, frequent, and costly** problem in a simple and clear manner:

- **For users:** No more app clutter or guessing what's available.
- **For restaurants:** Independence and visibility.
- **For admins:** Simplified moderation and system health.

The solution is crafted to match existing user behavior (mobile-first, fast decisions), and taps into pain points faced in conventional apps. This ensures **higher adoption, repeat usage, and stakeholder satisfaction**.
